Assistant Professor of Epidemiology

The Department of Epidemiology (https://epidemiology.phhp.ufl.edu) is recruiting a tenure track faculty member at the Assistant Professor level. The Department of Epidemiology is situated jointly within the College of Public Health and Health Professions and the College of Medicine, demonstrating a model of multidisciplinary research and focus. Faculty members pursue independent and collaborative research; they may also teach in the MS and PhD in Epidemiology Programs, the Master of Public Health program, and first and second year medical students. They are advisors and mentors to a wide variety of students. Our current faculty are leaders in psychiatric epidemiology, aging, cardiovascular, infectious disease, environmental, genetic and chronic disease epidemiology. The department works closely with the NIH-funded Clinical and Translational Science Institute and is home to HealthStreet and multiple NIH and other grants. The department has a vibrant research portfolio which includes two NIH T32 training grants.

Qualifications

- Doctoral degree in a public health, epidemiology or related field
- Demonstrated excellence in teaching and mentoring
- Interest and ability to work with multidisciplinary research teams
- Established record of funding

To Apply

See Job No 508526 on UF Careers Portal:
http://explore.jobs.ufl.edu/cw/en-us/job/508526/assistant-professor
Submit an application packet which includes cover letter, CV, and contact information of three references no later than September 9, 2018.

The University of Florida is a comprehensive research-extensive university that includes a full range of academic departments and programs (www.ufl.edu). The College of Public Health and Health Professions (www.phhp.ufl.edu) is part of the University’s Health Science Center. The UF Health Science Center (https://ufhealth.org/about-us) is the country’s only academic health center with six health-related colleges located on a single, contiguous campus. They include the colleges of Dentistry, Medicine, Nursing, Pharmacy, Public Health and Health Professions, and Veterinary Medicine. The Health Science Center generates more than half of UF’s total research awards.

*The University of Florida is an equal opportunity institution dedicated to building a broadly diverse and inclusive faculty and staff. Hiring is contingent upon eligibility to work in the U.S. Searches are conducted in accordance with Florida’s Sunshine Law.*
