Assistant Professor of Epidemiology

The Department of Epidemiology is recruiting a tenure or non-tenure track faculty member at the Assistant Professor level. The non-tenure track line will be primarily expected to teach courses that support our undergraduate and graduate public health programs and serve as faculty advisor in the Bachelor of Public Health Program. The tenure-track line will also teach but will be expected to have a robust research portfolio as well, with the expectation to provide 50% funding support within the first three years of hire. The Department of Epidemiology is situated jointly within the College of Public Health and Health Professions and the College of Medicine, demonstrating a model of multidisciplinary research and focus. Our current faculty are leaders in psychiatric epidemiology, aging, infectious disease, environment, genetic and chronic disease epidemiology. In addition to our PhD program we have a M.S. in epidemiology and a concentration in the MPH program. The department also has a vibrant research portfolio, with over $7 million in external funding.

Qualifications

- Doctoral degree in a public health, epidemiology or related field required
- Demonstrated excellence in teaching and mentoring
- Interest and ability to work with multidisciplinary research teams

To Apply

Submit cover letter, CV, and contact information of three references
Review of materials will begin immediately and continue until position is filled.

The University of Florida is a comprehensive research-extensive university that includes a full range of academic departments and programs (www.ufl.edu). The College of Public Health and Health Professions (www.phhp.ufl.edu) is part of the University’s Health Science Center. The UF Health Science Center (https://ufhealth.org/about-us) is the country’s only academic health center with six health-related colleges located on a single, contiguous campus. They include the colleges of Dentistry, Medicine, Nursing, Pharmacy, Public Health and Health Professions, and Veterinary Medicine. The Health Science Center generates more than half of UF’s total research awards.

The University of Florida is an equal opportunity institution dedicated to building a broadly diverse and inclusive faculty and staff. Hiring is contingent upon eligibility to work in the U.S. Searches are conducted in accordance with Florida’s Sunshine Law.
