Applications are being sought for a full-time, tenure-track faculty position in the Department of Health Services Research, Management and Policy. This is a full-time (1.00 FTE), 12-month position at any rank, expected to start in the Spring of 2019.

**Position:** Duties include research, teaching and mentoring of students, and service to the department. A successful applicant at the Associate or Full Professor level must have a strong track record of external grant funding. For hires at the Assistant Professor level, potential to develop such a record should be demonstrated. The department has a particular need for faculty that can teach in the department’s Master of Health Administration (MHA) program. The Department of Health Services Research, Management and Policy is one of eight departments in the College of Public Health and Health Professions. The department offers a Master of Health Administration (MHA) degree program, the Health Services Research concentration within the college’s PhD in Public Health program, and the Public Health Management and Policy concentration within the college’s Master of Public Health program. More information on the department can be found at [http://hsrmp.phhp.ufl.edu/](http://hsrmp.phhp.ufl.edu/).

The University of Florida is a comprehensive doctoral research-extensive university that includes a full range of academic departments and programs ([www.ufl.edu](http://www.ufl.edu)). It has a long history of established programs in international education, research and service. The University of Florida is one of only 17 public, land-grant universities that belong to the Association of American Universities. The College of Public Health and Health Professions at the University of Florida is one among 62 schools and colleges in the U.S. that have achieved accreditation as a school of public health from the Council on Education for Public Health. Unique among its peers, the college encompasses both public health and the health professions, thereby providing a fertile environment for the integration of population-based problem solving and individual patient care. These opportunities for collaboration in education, research and service further the college’s mission to preserve, promote and improve the health and well-being of populations, communities and individuals.

**Minimum Requirements:** Applicants must have a doctorate in health services research or a relevant, related discipline.

**Preferred Qualifications:** A master’s degree in health administration or business.

**Instructions to Applicants:** To view the job posting online, please go to [http://apply.interfolio.com/57708](http://apply.interfolio.com/57708). All applicants should submit an application packet, which includes a CV, letter of interest, and list of references. Application review will begin immediately and continue until the position is filled. Job# is 40718.

*The University of Florida is an equal opportunity institution dedicated to building a broadly diverse and inclusive faculty and staff. Hiring is contingent upon eligibility to work in the US. Searches are conducted in accordance with Florida’s Sunshine Law.*
