The Department of Environmental and Global Health in the College of Public Health and Health Professions at the University of Florida (UF) is recruiting a tenure track faculty member at the Associate or Full Professor level. The candidate will be expected to guide development of a program in Occupational Health/Occupational Medicine in the UF College of Public Health and Health Professions and in collaboration with the College of Medicine. The College of Public Health and Health Professions is one of 62 colleges and schools in the U.S. that have achieved accreditation as a school of public health from the Council on Education for Public Health. The college is ranked 9th in NIH funding among schools of public health at public universities in grants targeting issues of national and international significance. The Department of Environmental and Global Health is 1 of 8 departments that make up the College which offers doctoral, masters and undergraduate degree programs in Environmental Health and One Health.

The ideal candidate will have an academic background in occupational health/occupational medicine, including a strong publication record and a research portfolio with evidence of extramural funding; teaching experience; and potential experience in management of clinical occupational medicine programs. The candidate will be expected to engage with the NIOSH-funded Southeastern Coastal Center for Agricultural Health and Safety (www.sccahs.org), which is based in the Department of Environmental and Global Health, and to develop/maintain a research program in occupational health; to develop a teaching program for occupational health/occupational medicine; and with potential to assist with development of a clinical occupational medicine program. Depending on the candidate’s qualifications, opportunities exist for a joint appointment in the UF College of Medicine.

Applicants must have either a MD degree, with board certification in occupational/preventive medicine, or a doctoral degree in occupational health or a related field. The position is supported by a competitive salary and start-up package. This is a 1.0 FTE, 12-month position, expected to start Spring-Summer 2019.

The University of Florida is the flagship land-grant university for the state of Florida and is ranked in the Top Ten Public Universities by U.S. News and World Reports. The university is located in Gainesville, FL, which has been ranked the Best Place to Live in the US by Sperling and Sander's Cities Ranked & Rated. The College of Public Health and Health Professions is situated in the University's Health Science Center, which also includes the Colleges of Medicine, Pharmacy, Nursing, Dentistry, and Veterinary Medicine. The Health Science Center also partners with the immediately adjacent UF Health Shands Hospital, the Malcom Randall VA Medical Center, and the UF Health Science Center Regional campus located in Jacksonville, FL. In addition to the Health Sciences Center, the UF campus has 10 other Colleges, including the Colleges of Liberal Arts and Sciences, Agricultural and Life Sciences, Engineering, and Law. Major institutes and centers located at the University of Florida include the Emerging Pathogens Institute, the Center for Environmental and Human Toxicology, the Institute of
Child Health Policy, the UF Health Cancer Center, the UF Genetics Institute, the Clinical and Translational Science Institute and the McKnight Brain Institute, all of which provide state-of-the-art environments and access to large data sets for faculty collaboration. Opportunities for collaboration are also provided through the UF Institute for Food and Agricultural Sciences, which has responsibility for the state-wide Agricultural Extension system, with extension agents in each of Florida’s 67 counties.
